

# Kingsdale®

Poa poiformis 'PP500' 

## Contrasting blue foliage tussock grass

Kingsdale tolerates most soil conditions and is excellent for use in commercial plantings.

Kingsdale has fine blue arching leaves which add softness and stunning colour to any garden design. It is great for colour contrast when mass planted or can be used as an effective border.

Kingsdale also performs well on sloping sites that require erosion control.

Trim annually in Autumn or late Winter for peak performance. It is frost and drought tolerant and grows to a height of 45cm.

Not suitable for Queensland, or other hot humid climates. Suitable for south of Newcastle NSW and Geraldton WA.

DESCRIPTION	Fine, blue arching leaves
HEIGHT & WIDTH	45cm x 45cm
POSITION	Full sun to part shade
CARE	Cut back annually at base when required
USES	Ideal for mass plantings. Tolerates exposed areas
SOIL TYPE	Tolerates a wide variety of soil types
