

Treats up to 200m<sup>2</sup>

# eco-hydrate<sup>®</sup>

## Soil Wetter & Moisture Attractant

ACTIVE INGREDIENT: 270g/L ORGANIC HUMECTANTS,  
110g/L ORGANIC SOIL SURFACTANTS

ENRICHED WITH SEAWEED EXTRACT,  
FULVIC AND AMINO ACIDS

Cuts  
watering by  
**UP TO  
50%**

CONTENTS  
**500ml**

- Improves water penetration
- Boosts moisture retention
- Cuts water use
- Reduces plant stress
- 100% biodegradable

## ECO-HYDRATE WORKS IN 5 WAYS

1. Powerful soil wetter improves water penetration and absorption
2. Unique humectants attract and direct additional moisture to the roots
3. Added seaweed helps plants cope with stress related to lack of water
4. Specific amino acids assist plants to use water more efficiently
5. Fulvic and amino acids along with seaweed help improve soil structure and moisture retention

### DIRECTIONS FOR USE

SITUATION	RATES	HOW TO USE
Lawns	10ml per 9L watering can	Apply evenly to 4m <sup>2</sup> of lawn
Garden Beds & Veggie Patches	20ml per 9L watering can	Apply evenly to 4m <sup>2</sup> of garden beds
Pot Plants, Hanging Baskets, Containers	20ml per 9L watering can	Thoroughly water the container so all the potting mix is treated

Re-apply monthly during hot weather if required. Safe for natives.

**NOTE:** Rinse off any residual product from plant foliage as **eco-hydrate** only works within the soil.

**LIABILITY:** This product must only be used as directed. OCP will not be liable for any loss or damage due to a failure to strictly follow label directions.
