

Queen Mum™

Agapanthus orientalis 'PMN06' (b)

HARDY EXOTIC PLANTS

A larger companion to 'Cloudy Days' that produces very little seeds.

- Queen Mum™ *Agapanthus* has extra large dual colour heads that bloom in summer. It also displays glossy green straplike foliage that compliment the stunning flowers.
- Very disease tolerant.
- Grows up to 1.5m tall and suits sunny positions, but will tolerate shady positions.
- Remove spent flowers and dispose of them correctly if near bushland.
- Ideal for the waterwise gardener and looks great in a patio pot or as a border.
