

Aranda™

Dianella caerulea 'DC150' ♂

FOLIAGE FIRST RANGE

This is an ideal tidy border plant with clean foliage.

- Aranda™ *Dianella* is a compact, dwarf variety with slightly arching deep green foliage. It has cleaner foliage than other compact forms.
- This is a cane-less *Dianella* with very tight rhizome growth and a small spread.
- It grows well in coastal and inland climates.
- The Aranda™ plant has shown evergreen frost hardiness to -4°C with only some leaf discolouration. It will brown off in Canberra winters.
