

# Grey Box™

*Westringia fruticosa* 'WES04' (b)

NATIVE SHRUBS & GROUNDCOVERS

## Grey Box™ *Westringia* is the perfect native compliment for Ozbred Aussie Box®.

- Grey foliage with white flowers—great for colour contrast against green plants.
- An extremely compact form. Great for coastal or inland.
- Great as a hedge or left unpruned in its natural ball shape. It will stay compact in its natural shape. More regular pruning will result in a tidier, denser hedge.
- Grey Box™ *Westringia* is a great drought tolerant replacement for English Box.
- Proven to be very drought and frost tolerant, it is also found to work well in sandy and heavy clay soils.

*Unpruned for 3 years and still staying compact*

<b>Description</b>	Very compact native hedge plant
<b>Density</b>	3–6 plants per m <sup>2</sup> 2–3 per linear metre
<b>Height &amp; Width</b>	30–45cm x 30–45cm unpruned; 30cm x 30cm pruned
