

Irresistible™

Iresine herbstii

EMPORIUM RANGE: HOTTIES

Irresistibly more compact than the common form.

- Irresistible™ Iresine has denser, more compact multi-coloured foliage in comparison to the common form.
- It boasts chocolate brown foliage with pink highlights and stems.
- Irresistible™ Iresine is best planted in sheltered positions if light to moderate frosts are expected, and simply prune foliage in early spring.
- Pruning twice a year is recommended for best results.
- It can be trimmed or shaped into a low hedge, or used in a mixed border planting.
