

Cosmic Pink™

Rhaphiolepis indica 'RAPH02' (b)

HARDY EXOTIC PLANTS

A tough shrub with a magnificent display of large showy pink flowers.

- A compact evergreen shrub with a mounding type habit that is super tough.
- A medium form *Rhaphiolepis* with big pink flowers that contrast with the foliage through spring and summer.
- Cosmic Pink™ *Rhaphiolepis* tolerates extreme weather conditions including humidity, drought and frost and will handle most soil types.
- Well suited to coastal positions and difficult planting sites. It can be used almost anywhere.
- Handles sandy to well drained clay soils and works well when positioned in full sun to light shade.
- Can be used successfully in conjunction with the Cosmic White™ plant for height and flower colour contrast.
- Rarely ever produces seeds, making it a safer choice when planting near native bushland.

Description	Large flowers, tough compact form
Density	2-4 plants per m ² 1-3 per linear metre
Height & Width	50-80cm x 50-80cm
Flowering	Pink flowers from Sep-Nov
Best Planting Time	March-November
Uses	Water efficient gardens and landscapes
Position	Full sun to moderate shade Drought & frost tolerant
