

Cosmic White™

Rhaphiolepis indica 'RAPH01' (b)

HARDY EXOTIC PLANTS

A tough evergreen shrub that produces beautiful white flowers all year round.

- Cosmic White™ *Rhaphiolepis* is just about bullet proof—it is a large evergreen shrub that will grow pretty well anywhere and will tolerate most soil conditions.
- Ideal for roadside plantings, where it can live on natural rainfall once established.
- Produces masses of larger white flowers when compared to common *Rhaphiolepis*. It flowers heavily in spring with spot flowering the rest of the year—it's not unusual to see some flowers year round.
- Rarely ever produces seeds, making it a safer choice when planting near native bushland.
- Cosmic White™ *Rhaphiolepis* has very good disease resistance, producing very clean foliage.
- Great for those difficult planting positions where nothing else seems to thrive.

Description	Large, profusely flowering shrub
Density	1–3 plants per m ² 1–1.5 per linear metre
Height & Width	1.5–2m x 1.5m
Flowering	White flowers from Sep–Nov
