

Dense Fence™

Viburnum odoratissimum 'VOC1' (b)

HARDY EXOTIC PLANTS

An improved Sweet Viburnum with red new growth and white fragrant flowers in spring.

- Its finer leaves, higher density, shorter internodes and reddish new growth is what sets Dense Fence™ Viburnum apart from the common form.
- Will form a screening hedge quickly.
- Common Viburnum grows to about 5 metres, requiring more pruning. Although the Dense Fence™ plant would grow to 3.5 metres if left unpruned, this naturally more compact plant requires less pruning to keep it tidy.
- Its natural height and ability to grow into a screen relatively quickly makes it perfect for heights of 1.8 metres to 2.5 metres. Dense Fence™ Viburnum will form a 2 metre screen in 14 months if it's planted in 200mm pots and fertilised correctly.
- It handles cold and frost well.

Description	Dense screen; subtle red new growth
Density	1-2 plants per m ² 1-2 per linear metre
Height & Width	2.5m x 2m (up to 3.5m if left unpruned)
Flowering	White flowers in spring
Best Planting Time	Spring and autumn
Uses	Screen, hedge, small feature tree & patio pot plant
Position	Full sun to part shade; cold tolerant
Soil Type	Most soil types, prefers well drained soil
Care	Water as required for 8-13 weeks until established; use slow release fertiliser in early spring; prune as required
Where it Works	QLD, NSW, ACT, VIC, TAS, SA & WA
