

Everlasting Mega Gold™

Anigozanthos hybrid 'KPO3' (l)

A mid-sized, longer lived Kangaroo Paw with large gold flowers.

- The Everlasting Mega Gold™ plant has massive gold flowers that will often appear all year round, except in colder climates where they won't flower in winter. To encourage repeat flowering, remove old flowers.
- It has cleaner foliage with far less black spot than short lived Kangaroo Paw types.
- Its flowers reach 90cm–1m high.
- Perfect for borders, mass planting and pots. The large flowers of Everlasting Mega Gold™ *Anigozanthos* are also great for cut flower arrangements.

Description	Compact, clean foliage Kangaroo Paw
Density	4–5 plants per m ² 2–3 per linear metre
Height & Width	45–55cm x 45–55cm; 90cm–1m h flowers
Flowering	Large yellow flowers year round
Best Planting Time	March–October
Uses	Gardens, borders, mass planting and pots; cut foliage flowers
Position	Full sun open position Tolerates frost & drought
Soil Type	Well drained soils or raised gardens; will work in heavy soils if you avoid regular wet feet
Care	Water as required for 8–13 weeks until established; fertilise annually; remove older flower stems as needed; cut back untidy foliage every 1–2 years
Where It Works	NSW, ACT, VIC, TAS, SA, WA & QLD (in northern QLD it is shorter lived, approx. 2–3 years; south it is longer term)

Tips for long term success with Everlasting Mega Gold™ *Anigozanthos* in landscape mass plantings.

- Plant in 75mm of chunky hard wood chip mulch with no fine grade particles. This will help stop weed invasion. Mulch with lots of fines helps germinate weeds.
- Plant behind ultra low maintenance plants like Little Jess™ *Dianella* or Tanika® *Lomandra*. If they get untidy, this will hide it.
- It can also be planted on a random basis through plants that spread slightly such as Little Jess™, Breeze® and King Alfred® *Dianella*. These *Dianellas* will help stop weed invasion and cover the ground, while the Everlasting Kangaroo Paw will provide masses of rich coloured flowers. E.g: plant 6 Little Jess™ *Dianella* and one Everlasting Mega Gold™ *Anigozanthos* per m².
