

Meema™

Hardenbergia violacea 'HB1' (L)

NATIVE SHRUBS & GROUND COVERS

A *Hardenbergia* that is longer lived, with tidier foliage and longer lasting flowers.

- Shrubby ground cover that gets up to 2 metres spread. It will also creep up things if allowed to.
- In a pot it has the ability to grow in a clump, holding great form without the need of a trellis, making an easy retail plant to grow.
- In our trials of amongst 20 varieties, only Meema™ *Hardenbergia* kept crisp clean foliage through very cold winters and hot dry periods of northerly winds.
- Ozbreed have had Meema™ *Hardenbergia* in our trial gardens for many years and it has maintained a very tidy form, even without pruning. For best results, yearly pruning is recommended.
- Best suited to sheltered gardens in Canberra.

Description	Tidier, longer lived ground cover with a great shrubby form
Density	1-3 plants per m ² 1-2 per linear metre
Height & Width	50cm x 2m
Flowering	Purple flowers from Jul-Sep
Best Planting Time	March-October
Uses	Great feature plant for gardens and landscapes
Position	Full sun to semi shade; Tolerates drought & cold
Soil Type	Sandy to heavy clay soils
Care	Water as required for 8-13 weeks until established; prune once a year after flowering for a natural shape; prune 2-3 times a year for a hedge
Where it Works	QLD, NSW, ACT (survives in extreme cold, but will get some leaf burn), VIC, TAS, SA & WA
