

Quick Fence™

Viburnum odoratissimum 'VOQ1' (L)

HARDY EXOTIC PLANTS

A faster growing, tighter and more upright Viburnum.

- Quick Fence™ Viburnum has a tighter, bushier habit than Viburnum Emerald Lustre with mid green foliage.
- Makes a faster growing Viburnum.
- This hedge has white flowers in late spring, followed by small red fruit.
- The image to the right shows that Quick Fence™ Viburnum has already caught up to the Dense Fence™ Viburnum that was planted two years earlier. If you want a quick screen, use Quick Fence™ Viburnum. If you want less pruning and you are patient, use Dense Fence™ Viburnum.

Description	Fast growing, mid-sized screening and hedging plant
Density	1 plant per 1–2 m ² 1 plant per 1–2 linear metres
Height & Width	4m x 2.5m
Flowering	White flowers in late spring
Best Planting Time	Autumn and spring
Uses	Screening and hedging plant
Position	Full sun to part shade; cold tolerant
Soil Type	Most soil types, but prefers well-drained soil
Care	Water as required for 8–13 weeks until established; use slow release fertiliser in spring; tip prune to promote more lateral growth
Where it Works	QLD, NSW, ACT, VIC, TAS, SA & WA
