

Rainbow Twist™

Dianella prunina 'DPV308' (↓)

This *Dianella prunina* has twisting foliage with a rainbow of colours.

- Changes colours from season to season.
- In spring/summer, it has a mix of light green foliage with white and red edges. In autumn and winter, Rainbow Twist™ *Dianella* has a combination of deep reds and purple tones.
- Older foliage needs to be removed every 1–2 years to keep Rainbow Twist™ *Dianella* looking good.

Rainbow Twist™ has a change of colours in winter

Description	Twisted multi-coloured foliage
Density	3–6 plants per m ² 2–3 per linear metre
Height & Width	50cm x 50cm
Flowering	Blue/yellow flowers from Sep–Nov
Best Planting Time	April–October
Uses	Garden plant, foliage accent as a short-medium term perennial
Position	Full sun to part shade; for Sydney and north, shaded position recommended; tolerates frost and drought
Soil Type	Well drained soils to clay loam; prefers free draining soils or raised gardens in heavier soil; avoid very poor soil
Care	Water as required for 8–13 weeks until established, then do not overwater; use slow release fertiliser when establishing, then if required in spring; remove older foliage every 1–2 years as required
Where It Works	NSW, ACT, VIC, SA, WA & some parts of South East QLD (non humid regions similar to Toowoomba with free draining soil)
