

Scarlet Flame™

Callistemon viminalis 'CC19' (L)

NATIVE SHRUBS & GROUND COVERS

Beautiful rustic new growth foliage in an ultra compact form with showy red flowers.

- An ultra compact, fine leaf Callistemon bred from Captain Cook.
- Its new growth in autumn and spring shows masses of rustic red colour. This coupled with its bright red flowers provides a more colourful plant for a longer period.
- When Scarlet Flame™ Callistemon finishes flowering, it is self cleaning, meaning you do not get the just finished flowering look for very long.
- Yearly pruning will keep the Scarlet Flame™ plant as a tight compact shrub to around 60–80cm high. Pruning every second year will keep it to around 1–1.2m high.
- Without pruning, it will reach approximately 1.4–1.5 metres tall. More regular pruning will result in tidier, denser hedges.

Description	Dwarf, compact fine leaf Callistemon with subtle new growth
Density	1–3 plants per m ² 1–2 per linear metre
Height & Width	60cm–1.5m x 60cm–1m depending on conditions
Flowering	Red flowers from Sep–Nov
Best Planting Time	March–October
Uses	Hedge, specimen shrub
Position	Full sun to part shade; drought tolerant
Soil Type	Most soil types
Care	Water as required for 8–13 weeks until established; prune to shape 1–2 times a year after flowering for a tidy hedge or every 2–3 years for a natural shape
Where it Works	QLD, NSW, ACT, VIC, TAS, SA & WA
