

Sea Urchin™

Aloe hybrid 'ANDSEA' (♣)

HARDY EXOTIC PLANTS

More compact, tight and dense than the common form.

- Sea Urchin™ Aloe provides modern, architectural and clean blue/green foliage.
- Its prolific orange flowers in winter and spring are a stand out feature.
- This clumping Aloe is more compact, tight and dense than the common form, making it ideal for landscape mass planting, garden borders and specimen plantings.
