

# Shooting Star™

*Trachelospermum asiaticum* 'SJ01' (D)

## A variegated Star Jasmine ground cover with a smaller height.

- Shooting Star™ *Trachelospermum* only gets to half the height of the common form.
- The white and green variegated foliage of this ground cover makes it an excellent feature in any garden.
- Small fragrant white flowers really help the Shooting Star™ plant shine in summer and autumn.
- Although it can tolerate drought, it is best to keep moist in dry weather.
