

Sungold™

Lomandra longifolia 'LMV100' (l)

EMPORIUM
RANGE OF PLANTS

Subtle elegant golden variegated foliage for tough planting jobs.

- Sungold™ Lomandra is very drought and cold tolerant.
- A great variegated Lomandra for large no irrigation projects, or for low maintenance, high profile gardens.
- As far as *Lomandra longifolia* varieties go, the Sungold™ plant is very Phytophthora tolerant and works well in climates like Brisbane and non wet feet areas.
- Sungold™ Lomandra does turn slightly green in summer to easily cope with the heat, but always golden.
