

# Low Horizon™

*Westringia fruticosa* 'WES06' (b)

NATIVE SHRUBS & GROUND COVERS

## A dense and ultra-compact ground cover *Westringia*.

- With much shorter internodes and a flat habit, Low Horizon™ *Westringia* is the lowest maintenance ground cover *Westringia*.
- Testing in Canberra for cold tolerance shows it handles frost and cold well. Low Horizon™ *Westringia* has performed very well in testing in Sydney, handling it's humidity. The next step is to test it in Queensland and find out its wet feet tolerance.
- Pruning occasionally makes this plant even tighter in appearance. Low Horizon™ *Westringia* is a great companion for Grey Box™ *Westringia* and *Lomandra* varieties, which look so good next to *Westringias*.
- Low Horizon™ is lower growing and has reduced spread compared to Mundi™ *Westringia*, which is currently the premier ground cover *Westringia*.

<b>Description</b>	Tough, dense and compact ground cover
<b>Density</b>	2-3 plants per m <sup>2</sup> 2-3 per linear metre
<b>Height &amp; Width</b>	30cm x 70cm
<b>Flowering</b>	White flowers in early spring
<b>Best Planting Time</b>	March–November
<b>Uses</b>	Ground cover for mass plantings and gardens, or as a border plant
<b>Position</b>	Full sun to part shade; Tolerates drought & cold
<b>Soil Type</b>	Sandy to well drained clay soils
<b>Care</b>	Water as required for 8–13 weeks until established; prune if required or as desired
<b>Where it Works</b>	NSW, VIC, SA, WA, ACT & TAS; currently testing in QLD
