

Ozbreed  
**Red Rover™**  
Callistemon hybrid 'Calkwr' (D)

NATIVE SHRUBS & GROUND COVERS

**A ground cover Callistemon with unique foliage for year-round interest.**

- Ozbreed Red Rover™ Callistemon is a ground cover that will give you foliage interest year-round.
- It is strikingly different to other Callistemon, with its low growing habit and large, rounded leaf.
- It has a unique leaf shape that really makes a statement, and its stunning new red growth is a definite highlight of Ozbreed Red Rover™ Callistemon.
- Growing to a height of approximately 40cm, it can be pruned every second year for a tidy plant, or yearly for an even tidier more compact ground cover.
- The fact that the Ozbreed Red Rover™ plant has no flowers means that it also fits into our No Bees Please™ program.

<b>Description</b>	Low maintenance ground cover with red new growth and unique foliage
<b>Density</b>	1-2 plants per m <sup>2</sup> 1-2 plants per linear metre
<b>Height &amp; Width</b>	30-40cm x 1.5m
<b>Flowering</b>	No flowers
<b>Best Planting Time</b>	March-October
<b>Uses</b>	Ground cover for landscaping/ornamental use; suitable for sites where bees and pollen allergies are to be avoided
<b>Position</b>	Full sun to part shade Tolerates drought & frost
<b>Soil Type</b>	Most soil types; in humid climates like Brisbane, avoid heavy soils
<b>Care</b>	Water for 8-13 weeks as required until established; prune to shape if required; fertilise annually with slow release fertiliser; watch out for Webbing Caterpillar in establishment period
<b>Where it Works</b>	NSW, VIC, SA & South QLD (best suited to non humid regions like Toowoomba)
