

Fluro Burst™

Callistemon spp 'CNU19' (b)

EMPORIUM
RANGE OF PLANTS

This Callistemon demands attention with its burst of hot pink bottle brush flowers.

- Fluro Burst™ Callistemon is a semi-compact fine leaf Callistemon that is great as a feature plant or for mass planting and hedging.
- Its hot fluro pink flowers add a burst of colour in Spring, and contrast beautifully with its dark green foliage.
- It has good frost and drought tolerance once established, and will tolerate full sun to partly shaded positions.
- Great for attracting bees and native birds.
- It is a low maintenance Callistemon that requires little to no pruning to maintain a tidy form, but can be pruned yearly to encourage a denser habit.

Description	Semi-compact Callistemon with hot pink flowers
Density	1-3 plants per m ² 1-2 per linear metre
Height & Width	1-1.5m x 90cm-1.2m
Flowering	Hot pink flowers in spring
Best Planting Time	March-October
Uses	Hedges, mass planting, feature plant, specimen planting and contrast planting
Position	Full sun to part shade
Soil Type	Most soil types
Care	Water as required for 8-13 weeks until established. Plant in a well mulched garden (chunky mulch is recommended). If required use slow release fertiliser in spring. If ever required, prune every 3-4 years for a natural shape, or every 2 years for a tidy hedge.
Where It Works	NSW, VIC, Sth QLD, SA & WA (more testing required for Nth QLD & ACT)
