

Ozbreed Zen Grass®

Zoysia spp. 'ZOY01' (l) Intended

HARDY EXOTIC PLANTS

A low-maintenance, fast spreading alternative to traditional lawns.

- Japanese Lawn Grass *Zoysia* spp. is tough with less dropouts.
- Less weed invasion due to denser growth. Most weeds can be sprayed out selectively.
- Fast spreading.
- Has a nice, wavy look.
- Only needs to be mowed once every 1-2 years.

Description	A Japanese garden style lawn, that is easy to preserve
Density	For fast coverage, 7-9 per m2 7-9 per linear metre
Height & Width	10-20cm H x 1m W
Best Planting Time	Spring through to autumn
Uses	No or low mow lawn alternative, garden understory, Japanese garden
Position	Extremely tolerant to drought, frost and heat. Wear tolerant. Survived floods. Tough in shade.
Soil Type	Low fertiliser requirements
Care	Water for 4-8 weeks until established
Where it Works	Likely Australia-wide Trial in QLD and ACT
