

Chocomint Mist™

Phormium tenax 'PHOS4'

STRAPPY LEAF PLANTS

An ultra compact Phormium with minty green and chocolate brown foliage.

- Chocomint Mist™ Phormium tolerates heavy frost and moderate dry conditions.
- Ensure it isn't planted with the crown of the plant below soil level, as it will not thrive as good as it should.
- In humid areas such as Sydney, this ultra compact Phormium should be planted around March to October for the best results.

Description	Ultra compact, chocomint colour
Density	6-10 plants per m ² 3-5 per linear metre
Height & Width	400mm x 400mm
Flowering	N/A
Best Planting Time	March-October
Uses	Mass plantings as a low border or fill in plant, specimen planting
Position	Full sun to part shade Tolerates frost & drought
